About Me

- Passionate Web Developer with hands-on experience building responsive web applications using React, Tailwind CSS, and the MERN stack. Skilled in clean code practices, UI/UX design, API integration, and modern state management tools like Redux and Zustand.

- Creative and curious by nature — always exploring new technologies and frameworks to build better, scalable solutions. Focused on solving real-world problems and delivering user-centric products in fast-paced environments.

Skills

- Frontend: React.js, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, React Hooks, Context API

- Backend: Node.js, Express.js, REST APIs, JWT Authentication

- Database: MongoDB, Mongoose

- Real-Time & Communication: Socket.io

- Tools & Deployment: Git, GitHub, Vite, Cloudinary, Netlify, Render

Experience

Frontend Developer (Remote)
Vaishnavi Solution, Ranchi | Jan 2025 – Mar 2025

- Built responsive front-end interfaces using React, HTML, CSS, and JS.
- Delivered functional web modules within deadlines, collaborating remotely.
- Implemented reusable components and optimized UI performance.

Projects

Lumen Wear (E-commerce Platform)   Live | GitHub
Tech Stack : React, Tailwind CSS, Redux, Express, Mongo db, Cloudinary

- Built a responsive MERN-based e-commerce platform with product search, filters, and sorting. Integrated secure auth (JWT, bcrypt), image uploads (Multer, Cloudinary), and a full admin dashboard for managing users/products and viewing sales analytics. Deployed client and server on Vercel.

Picture-It (Text to Image Generator)   Live | GitHub
Tech Stack : React, Express, MongoDB, JWT, Clipdrop API

- Built a single-page AI image generator using React and Clipdrop API to convert text prompts into images. Implemented user auth (JWT, bcrypt), modals for login, image download functionality, and loading animations for better UX. Backend handles secure API calls and user data, connected with MongoDB.

Free Chat App (Real-Time Chat)   Live | GitHub
Tech Stack : React, Express, MongoDB, Socket.io, JWT, Cloudinary Zustand

- Developed a real-time chat application with secure auth (JWT, bcrypt), image upload via Cloudinary, and responsive UI using Tailwind and Radix UI. Implemented chat rooms, online status, message persistence, emoji support, and smooth UX with animations and modals. Enabled real-time communication using Socket.io, with a scalable backend connected to MongoDB.

Education

Bachelor of Computer Applications (BCA)
Anugrah Narayan College, Patna University, Patna | 2017–2020 (Result Declared 2021)

- Active GitHub contributor with multiple live projects.
- Self-driven learning of modern technologies and frameworks.
- Focused on clean, maintainable, and scalable code.
- Strong problem-solving skills and collaborative work experience.
